

Manufacturing

Assembling the Ideal Components for Work and for Life

Building More than Goods

Manufacturing is our past, present, and future; as a result, it forms a significant portion of Pennsylvania's economy. Companies of all sizes have reaped the benefits of Pennsylvania's diverse, global economy—many times forging valuable partnerships with universities or other businesses in the process. Bayer and BAE Systems, B. Braun and Siemens, Gilson Boards, RGM Watch Co., C.F. Martin Guitar, Sanofi Pasteur and Millet Plastics Group, BWP Bats, and many more have found a place as members of Pennsylvania's communities.
