

Autonomous Vehicles

Driving the future of mobility

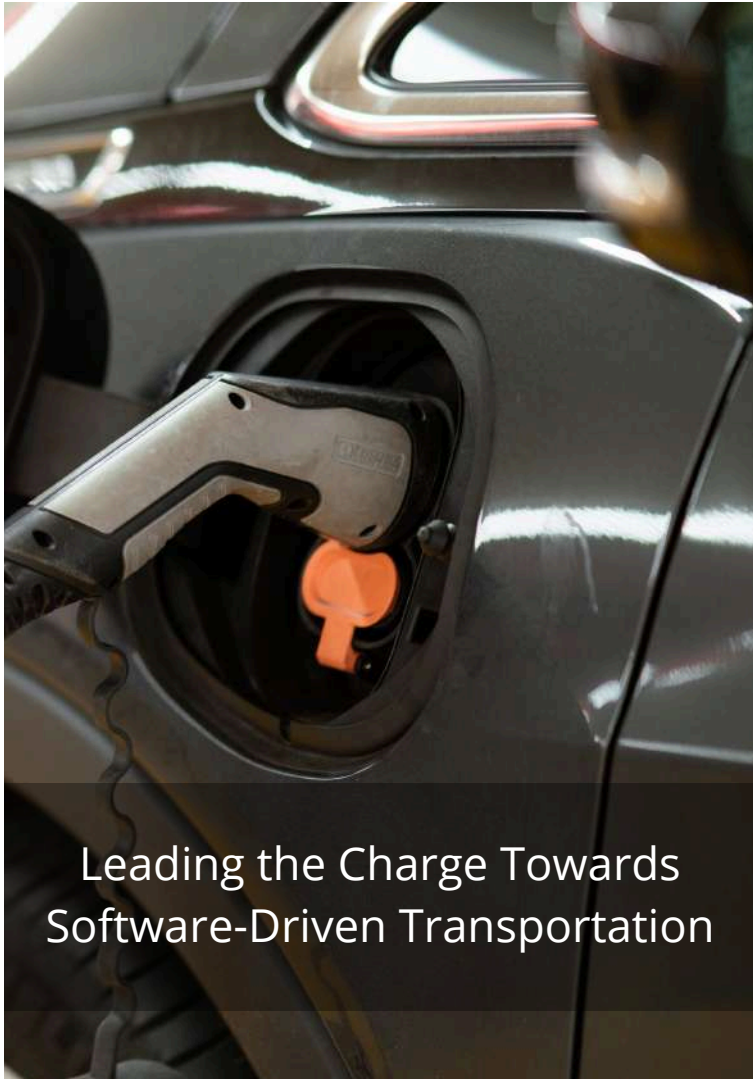

Smart Mobility
is Powered in Pennsylvania

Pennsylvania is a key hub for the AV/EV industries, driven by top research institutions like **Carnegie Mellon University** and the **University of Pittsburgh**. These universities, with **over \$1 billion** in annual research funding, are advancing AI and robotics for AV/EV technologies. **NVIDIA** is actively supporting this growth, partnering with both universities to establish **AI and robotics centers**, providing cutting-edge tools to accelerate innovation.
